Standard Grading and Erosion Control Information:

1. Call 1-800-424-5555 not less than 48 hours before beginning excavation where any underground utilities may be located. Failure to do so could mean bearing substantial repair costs.
2. Builder responsible for damaged sidewalk, curb, gutter, street.
3. Wet season (October 1 to April 1) notes:
 - a) All grading shall be in accordance with the King County Surface Water Design Manual and as stated herein. The City will strictly enforce wet season grading requirements. Any violation of requirements will result in immediate issuance of a STOP WORK ORDER. All bare ground is to be covered at the end of each work day during the wet season.
 - b) Builder responsible for keeping the street clear of dirt, mud, and debris. Streets shall be cleaned by sweeping as the first preference. Streets shall be cleaned daily as a minimum. Washing the roadways with water may be allowed on a limited basis and will require the builder to clean the storm drain system per direction from the City.
 - c) All stockpiles and steep slopes (3:1 horizontal:vertical or steeper) must be covered during wet season.
 - d) All erosion control measures are to be maintained at least weekly and within 24 hours of any storm event.
 - e) Failure to control onsite erosion or maintenance of erosion control measures will result in the City issuing a STOP WORK ORDER.
4. Any changes to these approved plans must be approved by the City in writing.
5. Construction hours are 7:00 AM to 8:00 PM on weekdays and 9:00 AM to 6:00 PM on weekends and holidays.
6. All grading on the site shall be in accordance with the Uniform Building Code Chapter Appendix 33 with respect to grading activities near the property boundaries.
