British Export

<http://www.britishexport.com/>

British Export has provided the ultimate Beatles tribute show for over a decade. The band has performed for tens of thousands of fans at some of the most prestigious events in the world. British Export has performed at The Cavern Club in Liverpool, England, Abbey Road Studios in London, The Rock N Roll Hall of Fame, South Korea, the Amsterdam Hilton and Comiskey Park in Chicago. Other past performances of note include the United Center, the Arlington Million, Taste of Chicago, and Wrigley Field. They have appeared on NBC, WGN, FOX, and ESPN. They were featured on the Travel Channel's "Beatlemania Britain" Show. British Export features vintage suits and instruments reminiscent of the Beatles performances of the 60's including a colorful Sgt. Pepper set, Post-touring recording years set, and the Cavern Club-Hamburg set. All songs are performed duplicating the sound of the original recordings. Check out British Export, and you'll see why they were voted the top Beatles tribute, three times, at Beatlefest in both New York and Chicago.
