

IS COVINGTON AT RISK FOR NATURAL DISASTERS?

Attend a free public workshop and learn about our hazards and how you can help reduce the impacts.

**Thursday, September 5th
6:30 – 8:30 PM
Covington City Hall
Council Chambers**

All residents of Covington are invited to join City staff and other partners to learn more about the City's study on vulnerability. This study is part of our first Hazard Mitigation Plan.

Our mitigation plan will help us develop projects to reduce the risk from hazards before they happen and to recover more quickly afterwards. You will learn about the hazards that we face and how vulnerable your home may be to some natural hazards. At the workshop there will be:

- A presentation about the risks that we face,
- Maps of known hazard areas,
- A work station for you to receive damage estimates for your home, and
- Information about local agencies engaged in hazard mitigation or disaster preparedness.

LEARN MORE ABOUT RISKS ASSOCIATED WITH THE FOLLOWING HAZARDS:

- Dam Failure
- Drought
- Earthquake
- Flood
- Landslide
- Severe Weather
- Volcano
- Wildfire
- Other Hazards

PLEASE JOIN US AND THE FOLLOWING ORGANIZATIONS:

- City of Kent OEM/CERT
- LDS Church Ham Radio Emergency Network
- Covington Home Depot
- American Red Cross (tentative)
