PUBLIC COMMENTS – GUESTS:
• Don Vondron from Public Works, Chuck from Tetra Tech, and Kevin from TT presented another sample board for the Kent-Kangley bridge project that incorporated the comments we’d made at the last meeting with them, as well as input they’d received from WADOT. A discussion ensued regarding the desired relief pattern for the railing wall. Someone mentioned that dragonflies would be an excellent design element since Crestwood Elementary students were responsible for that being the state insect. We were advised to have a draft design ready within 6 months.
