

**ORDINANCE NO. 12-2019**

**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF COVINGTON, KING COUNTY, WASHINGTON, ADOPTING THE KENT SCHOOL DISTRICT SIX-YEAR CAPITAL FACILITIES PLAN FOR 2018-19 TO 2024-25 AN ASSOCIATED 2020 KENT SCHOOL DISTRICT IMPACT FEE SCHEDULE; PROVIDING FOR SEVERABILITY; AND ESTABLISHING AN EFFECTIVE DATE.**

WHEREAS, in compliance with the Growth Management Act, the Kent School District (“District”) has prepared a Capital Facilities Plan that has previously been adopted by the City of Covington (“City”) within the Capital Facilities and Utilities Element of the City’s Comprehensive Plan; and

WHEREAS, Chapter 19.40 of the Covington Municipal Code (“CMC”) authorizes the City to adopt a District’s Capital Facilities Plan by reference as part of the Capital Facilities and Utilities Element of the City’s Comprehensive Plan; and

WHEREAS, the District has adopted an updated Six-Year Capital Facilities Plan for 2018-19 to 2024-25 (the “Plan”) and submitted their updated Plan to the City; and

WHEREAS, the Plan contains the elements required by Chapter 19.40 CMC; and

WHEREAS, upon providing appropriate public notice, the Covington City Council conducted a public hearing on October 8, 2019, to receive testimony regarding the proposed adoption of the Kent School District Six-Year Capital Facilities Plan and associated Kent School District Impact Fee Schedule;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF COVINGTON, KING COUNTY, WASHINGTON, DOES ORDAIN AS FOLLOWS:

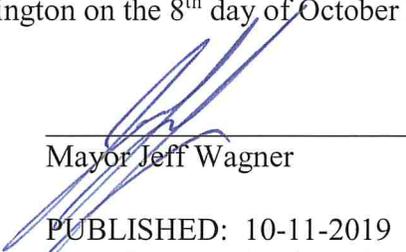

Section 1. Adoption. The City hereby adopts the Kent School District Six-Year Capital Facilities Plan for 2018-19 to 2024-25 and the associated 2020 Kent School District Impact Fee Schedule, as set forth in Exhibits A & B to Attachment 1, attached and incorporated herein by this reference.

Section 2. Severability. If any provision of this ordinance, or ordinance modified by it, is determined to be invalid or unenforceable for any reason, the remaining provisions of this ordinance and ordinances and/or resolutions modified by it shall remain in force and effect.

Section 3. Corrections. Upon approval of the city attorney, the city clerk and/or code reviser are authorized to make necessary corrections to this ordinance, including the correction of clerical errors; references to other local, state, or federal laws, codes, rules, or regulations; or ordinance numbering and section/subsection numbering.

Section 4. Effective Date. This ordinance shall be in full force and effect on January 1, 2020. A summary of this ordinance may be published in lieu of publishing the ordinance in its entirety.

PASSED by the City Council of the City of Covington on the 8<sup>th</sup> day of October 2019.

## I - Executive Summary

This Six-Year Capital Facilities Plan (the "Plan") has been prepared by the Kent School District (the "District") as the organization's capital facilities planning document, in compliance with the requirements of Washington's Growth Management Act, King County Code K.C.C. 21A.43 and Cities of Kent, Covington, Renton, Auburn, Black Diamond, Maple Valley, and SeaTac. This annual Plan update was prepared using data available in the spring of 2019 for the 2019-2020 school year.

This Plan is consistent with prior long-term capital facilities plans adopted by the Kent School District. This Plan is not intended to be the sole planning document for all of the District's needs. The District may prepare interim and periodic Long-Range Capital Facilities Plans consistent with Board Policies, taking into account a longer or shorter time period, other factors and trends in the use of facilities, and other needs of the District as may be required.

Prior Capital Facilities Plans of the Kent School District have been adopted by Metropolitan King County Council and Cities of Kent, Covington, Auburn and Renton and included in the Capital Facilities Plan element of the Comprehensive Plans of each jurisdiction. This Plan has also been submitted to cities of Black Diamond, Maple Valley, and SeaTac for their information and inclusion in their Comprehensive Plans.

In order for impact fees to be collected in the unincorporated areas of Kent School District, the Metropolitan King County Council must adopt this Plan and a fee-implementing ordinance for the District. For impact fees to be collected in the incorporated portions of the District, the cities of Kent, Covington, Renton and Auburn must also adopt this Plan and their own school impact fee ordinances.

This Capital Facilities Plan establishes a standard of service in order to ascertain current and future capacity. While the State Superintendent of Public Instruction establishes square footage guidelines for capacity, those guidelines do not account for local program needs in the District. The Growth Management Act, King County and City codes and ordinances authorize the District to make adjustments to the standard of service based on specific needs for students of the District.

This Plan includes the standard of service as established by Kent School District. Program capacity is based on an average capacity and updated to reflect changes to special programs served in each building. Portables in the capacity calculation use the same standard of service as the permanent facilities.

The capacity of each school in the District is calculated based on the District's standard of service and the existing inventory of permanent facilities. The District's program capacity of permanent facilities reflects program changes and the state's mandated reduction of class size to meet the standard of service for Kent School District. Portables provide additional transitional capacity.

Kent School District is the fifth largest (FTE basis) district in the state. Enrollment is electronically reported monthly to the Office of the Superintendent of Public Instruction ("OSPI") on Form P-223. Although funding apportionment is based on Annual Average Full Time Equivalent (AAFTE), enrollment on October 1 is a widely recognized "snapshot in time" that is used to report the District's enrollment for the year as reported to OSPI.

The District received authorization from the Office of Superintendent of Public Instruction to temporarily re-open the former Kent Elementary School at 317 Fourth Avenue South in Kent. This facility is used to house the kindergarten and early child education classes for both Kent and Neely-O'Brien Elementary Schools to alleviate overcrowding at those schools. This building re-opened in fall 2014 as the Kent Valley Early Learning Center.

The District's standard of service, enrollment history and projections, and use of transitional facilities are reviewed in detail in various sections of this Plan. The District plans to continue to satisfy concurrency requirements through the transitional use of portables.

A financing plan is included in Section VIII which demonstrates the District's ability to implement this Plan. Pursuant to the requirements of the Growth Management Act, this Plan will be updated annually with changes in the impact fee schedules adjusted accordingly.

## II - Six - Year Enrollment Projection

For capital facilities planning, enrollment growth projections are based on cohort survival and student yield from documented residential construction projected over the next six years. (See Table 2, page 7 and map page 37). The student generation factor is the basis for the growth projections from new developments. (See Page 5)

King County live births and the District's relational percentage average were used to determine the number of kindergartners entering the system. (See Table 1, page 6) 8.19% of 25,032 King County live births in 2014 is projected for 1,965 students expected in Kindergarten for October 1, 2019. This is an increase of 402 live births in King County over the previous year. (See Table 2, page 7)

Early Childhood Education students (also identified as “ECE”), “Early Childhood Special Education (“ECSE”) students are forecast and reported to OSPI separately on Form P-223H for Special Education Enrollment. Capacity is reserved to serve students in the ECE programs at elementary schools.

The first grade population of Kent School District is traditionally 1-3% larger than the kindergarten population due to growth and transfers to the District. Cohort survival method uses historical enrollment data to forecast the number of students projected for the following year. Projections for October 1, 2019-2024 are from OSPI Report 1049 – Determination of Projected Enrollments.

Within practical limits, the District has kept abreast of proposed developments. The District will continue to track new development activity to determine impact to schools. Information on new residential developments and the completion of these proposed developments in all jurisdictions will be considered in the District's future analysis of growth projections. *(see map page 36)*

The Kent School District serves eight permitting jurisdictions: unincorporated King County, the cities of Kent, Covington, Renton, and Auburn and smaller portions of the cities of SeaTac, Black Diamond, and Maple Valley.

### **STUDENT GENERATION FACTOR**

"Student Factor" is defined by King County code as "the number derived by a school district to describe how many students of each grade span are expected to be generated by a dwelling unit" based on district records of average actual student generated rates for developments completed within the last ten years.

Following these guidelines, the student generation rate for Kent School District is as follows:

Single Family	Elementary	.398
	Middle School	.096
	Senior High	<u>.185</u>
	<b>Total</b>	<b>.679</b>
Multi-Family	Elementary	.117
	Middle School	.028
	Senior High	<u>.029</u>
	<b>Total</b>	<b>.174</b>

The student generation factor is based on a survey of 2,757 single-family dwelling units and 1,831 multi-family dwelling units with no adjustment for occupancy rates. Please refer to Appendix D on Page 34 of the Capital Facilities Plan for details of the Student Generation Factor survey.

In preparing the 2018-2019 to 2024-2025 Capital Facilities Plan the District contracted with Davis Demographics and Planning (DDP) of Riverside California, a noted expert in demographic studies for school districts, to analyze and prepare the student generation factor. DDP used a larger sample of single family residences than the district did in previous plans and included both "garden" and "urban style" apartments in the calculation for multi-family residences.

Urban style apartments typically have four stories, a central lobby and entrance, elevator access to all floors and have a central corridor with apartments on each side. These apartments have little or no surface street parking, with parking located beneath the building; retail may or may not be included with the building. If there is retail it will generally be located on the first floor. These apartments seldom have swimming pools and do not have playgrounds for children.

Garden style apartments will have very little studio apartments and will have more three bedroom apartments than the urban style and in theory generate more students enrolled in school. These apartments will also have lawns, club houses, swimming pools and places for children to play.

The District felt that it is important to include both styles of apartments for the student generation factor. Though it is anticipated that few students will come from the urban style, they are now part of the mix in Kent and thus should be included in mix of multi-family housing units.

Within the district's borders there are several low-income and multi-family housing projects coming on-line during 2019-2020. Once developed with occupancy occurring the District does recognize that the student generation for multi-family housing will likely increase for future Capital Facilities Plan updates.

### **III - Current Kent School District "Standard of Service"**

In order to determine the capacity of facilities in a school district, King County Code 21A.06 references a "standard of service" that each school district must establish in order to ascertain its overall capacity. The standard of service identifies the program year, the class size, the number of classrooms, students and programs of special need, and other factors determined by the district which would best serve the student population.

This Plan includes the standard of service as established by Kent School District. The District has identified schools with significant special needs programs as “impact” schools and the standard of service targets a lower class size at those facilities. Portables included in the capacity calculation use the same standard of service as the permanent facilities. (See Appendix A, B & C)

The standard of service defined herein will continue to evolve in the future. Kent School District is continuing a long-term strategic planning process combined with review of changes to capacity and standard of service. This process will affect various aspects of the District's standard of service and future changes will be reflected in future capital facilities plans.

### ***Current Standards of Service for Elementary Students***

Class size for Kindergarten is planned for an average of 17 or fewer students.

Class size for grades 1 - 3 is planned for an average of 23 or fewer students.

Class size for grades 4 - 6 is planned for an average of 27 or fewer students.

The class size ratio for Kindergarten-3<sup>rd</sup> grade is 23 students with a class cap of 26, per the negotiated collective bargaining agreement with KEA. Beginning in 19-20, K-3 class size is calculated for a ratio of 1:17, after considering all allowable FTE per the RCW.

Beginning in the 2015-2016, the state has funded a lower class size in 14 elementary schools that were classified as high poverty. Currently, the state now funds a class size of 17 to 1 in all schools for grades K – 3. Compliance with this new state class size funding requirement has been delayed to the 2019-20 school year, the district is exploring options to staff grades K – 3 at or near the 17 to 1 level.

Some special programs require specialized classroom space and the program capacity of some of the buildings housing these programs is reduced. Some students, for example, leave their regular classroom for a short period of time to receive instruction in special programs and space must be allocated to serve these programs.

Students may also be provided music instruction and physical education in a separate classroom or facility.

Some identified students will also be provided educational opportunities in classrooms for special programs such as those designated as follows:

English Learners (EL)

Education for Disadvantaged Students (Title I) – Federal Program

Learning Assisted Programs (LAP) – State Program

Highly Capable Students – State Program

Reading, math or science Labs  
Dual Language Programs in three elementary schools

Inclusive Education Service for Elementary and Secondary students with disabilities may be provided in a separate or self-contained classroom sometimes with a capacity of 10-15 depending on the program:

- Early Childhood Special Education (ECSE) -3-4 yr. old students with disabilities
- Tiered Intervention in Inclusive Education Support Center Programs
- Integrated Programs & Resource Rooms (for special remedial assistance)
- Self-contained Inclusive Education Support Center Programs (SC)
- School Adjustment Programs for students with behavioral disorders (SA)
- Adaptive Support Center for Mild, Moderate & Severe Disabilities (ASCDD)
- Speech & Language Therapy & Programs for Hearing Impaired students
- Occupational & Physical Therapy Programs (OT/PT)
- The Outreach Program (TOP) for 18-21 year old secondary students

Some newer buildings have been constructed to accommodate most of these programs; some older buildings have been modified, and in some circumstances, these modifications reduce the classroom capacity of the buildings. When programs change, program capacity is updated to reflect the change in program and capacity.

### ***Current District Standards of Service for Secondary Students***

The standards of service outlined below reflect only those programs and educational opportunities provided to secondary students which directly affect the capacity of the school buildings.

The average class size for grades 7–8 is 30 students per class with a cap per teacher of 150 students.

The average class size for grades 9-12 is 32 students per class with a cap per teacher of 160 students.

Similar to Inclusive Education Programs listed above, many other secondary programs require specialized classroom space which can reduce the program capacity of the permanent school buildings.

Identified secondary students will also be provided other educational opportunities in classrooms for programs designated as follows:

- Computer, Multi-Media & Technology Labs & Programs
- Technology Academy at Kent-Meridian High School & Mill Creek Middle School

- Science Programs & Labs – Biology, Chemistry, Physics, Oceanography, Astronomy, Meteorology, Marine Biology, General Science, etc.
- English Learners (EL)
- Music Programs – Band, Orchestra, Chorus, Jazz Band, etc.
- Art Programs – Painting, Design, Drawing, Ceramics, Pottery, Photography, etc.
- Theater Arts – Drama, Stage Tech, etc.
- Journalism and Yearbook Classes
- Highly Capable (Honors or Gifted) and Advanced Placement Programs
- International Baccalaureate (“IB”) Program
- JROTC - Junior Reserve Officers Training Corps
- Career & Technical Education Programs (CTE - Vocational Education)
- Family & Consumer Science – Culinary Arts, Sewing, Careers with/Children/Education, etc.
- Child Development Preschool and Daycare Programs
- Health & Human Services – Sports Medicine, Sign Language, Cosmetology, etc.
- Business Education – Word Processing, Accounting, Business Law & Math, Marketing, Economics, Web Design, DECA, FBLA (Future Business Leaders).
- Technical & Industry – Woodworking, Cabinet Making, Building Trades, Metals, Automotive & Manufacturing Technology, Welding, Drafting, Drawing, CAD (Computer-aided Design), Electronics, Engineering & Design, Aviation, ASL, etc.
- Graphic & Commercial Arts, Media, Photography, Theater & Stage, Agriculture & Horticulture.
- Kent Phoenix Academy – Performance Learning Center, Gateway, Virtual High School, and Kent Success programs

#### Space or Classroom Utilization

As a result of scheduling conflicts for student programs, the need for specialized rooms for certain programs, and the need for teachers to have a work space during their planning periods, it is not possible to achieve 100% utilization of regular teaching stations at secondary schools. Based on the analysis of actual utilization of classrooms, the District has determined that the standard utilization rate is 85% for secondary schools. Program capacity at elementary schools reflects 100% utilization at the elementary level.

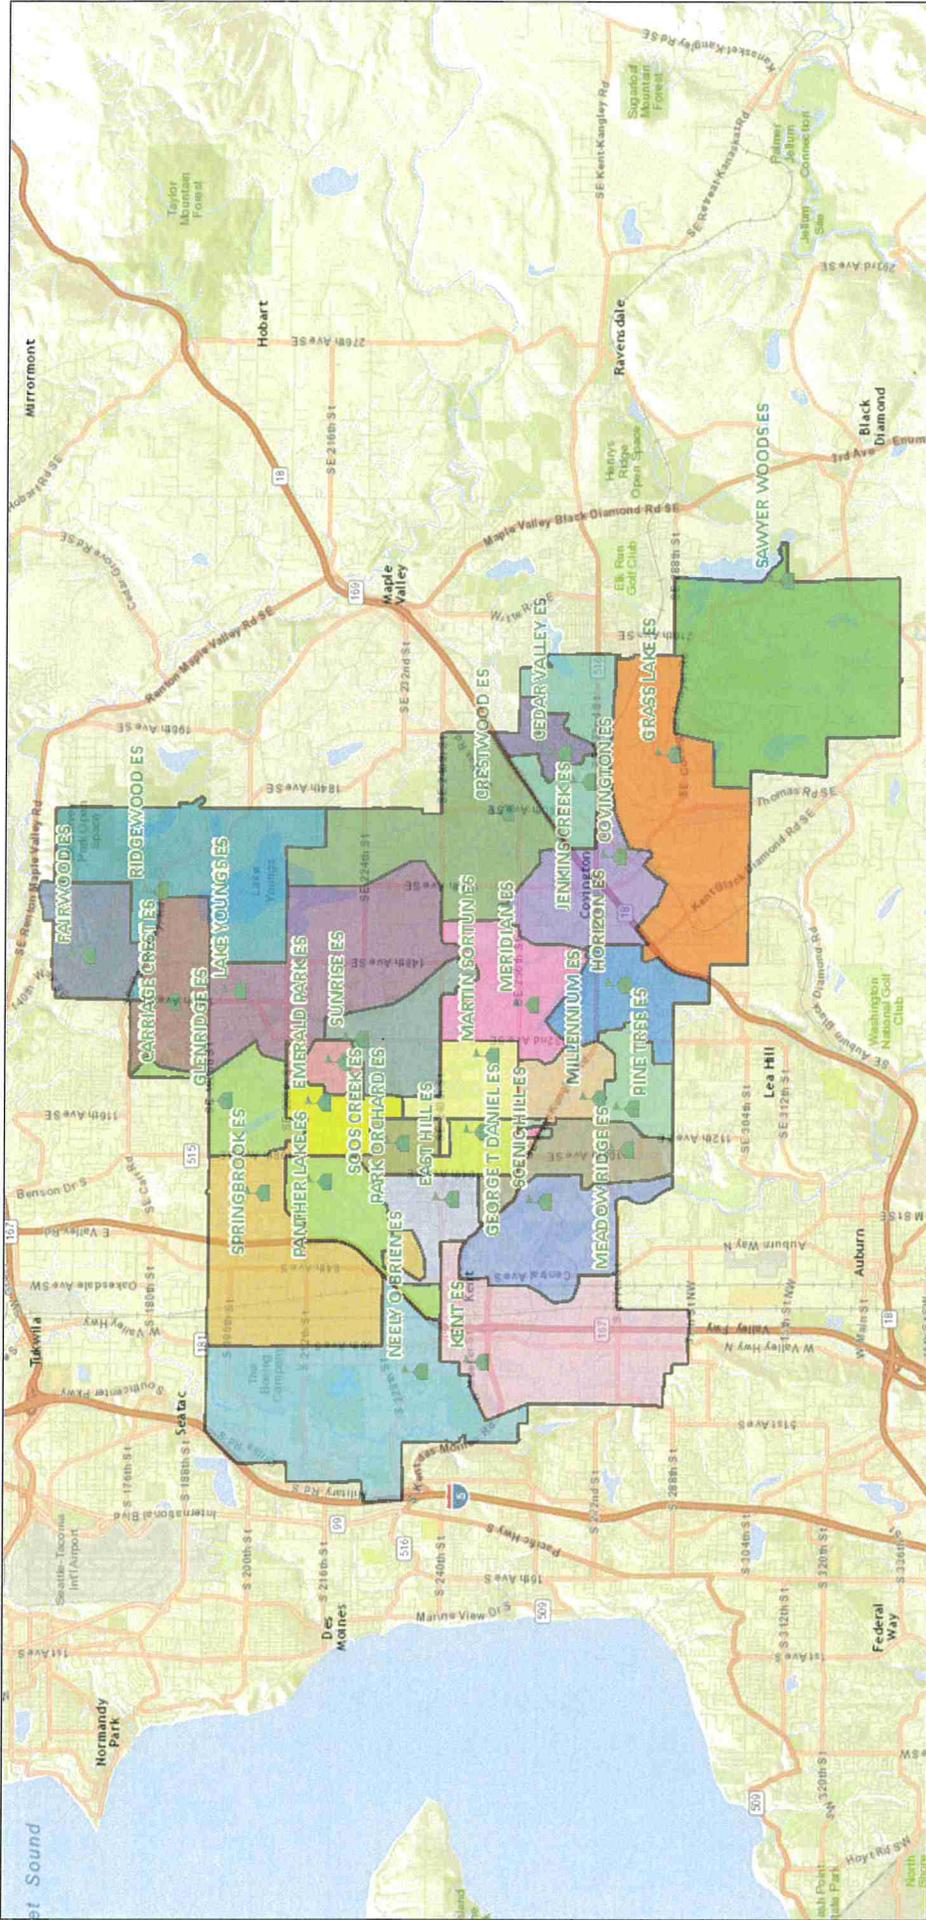

## **IV - Inventory and Capacity of Existing Schools**

Currently, the District has permanent program capacity to house 27,255 students and transitional (portable) capacity to house 2,085. This capacity is based on the District's Standard of Service as set forth in Section III. Included in this Plan is an inventory of the District's schools by type, address and current capacity. (*See Table 3 on Page 11*). The ratio between permanent capacity and portable capacity is 94.9%-5.1%.

Davis Demographics & Planning

The program capacity is periodically updated for changes in programs, additional classrooms and new schools. Program capacity has been updated in this Plan to reflect program changes implemented in the Fall of 2018.

Calculation of Elementary, Middle School and Senior High School capacities are set forth in Appendices A, B, and C. Maps of existing schools are included on Pages 12-14.

For clarification, the following is a brief description of some of the non-traditional programs for students in Kent School District:

Kent Mountain View Academy serves Grades 3 – 12 with transition, choice, and home school assistance programs. This school was originally designed as an elementary school and is included in the elementary capacity for this Plan.

Kent Phoenix Academy is a non-traditional high school opened in fall 2007. Kent Phoenix Academy has four special programs including the Performance Learning Center, Gateway, Virtual High School, and Kent Success.

Both the Kent Mountain View Academy and the Kent Phoenix Academy will be sharing the building that formerly served Sequoia Middle School beginning the school year 2019-2020. The Kent Mountain View Academy site will be the location of the New Valley Elementary School.

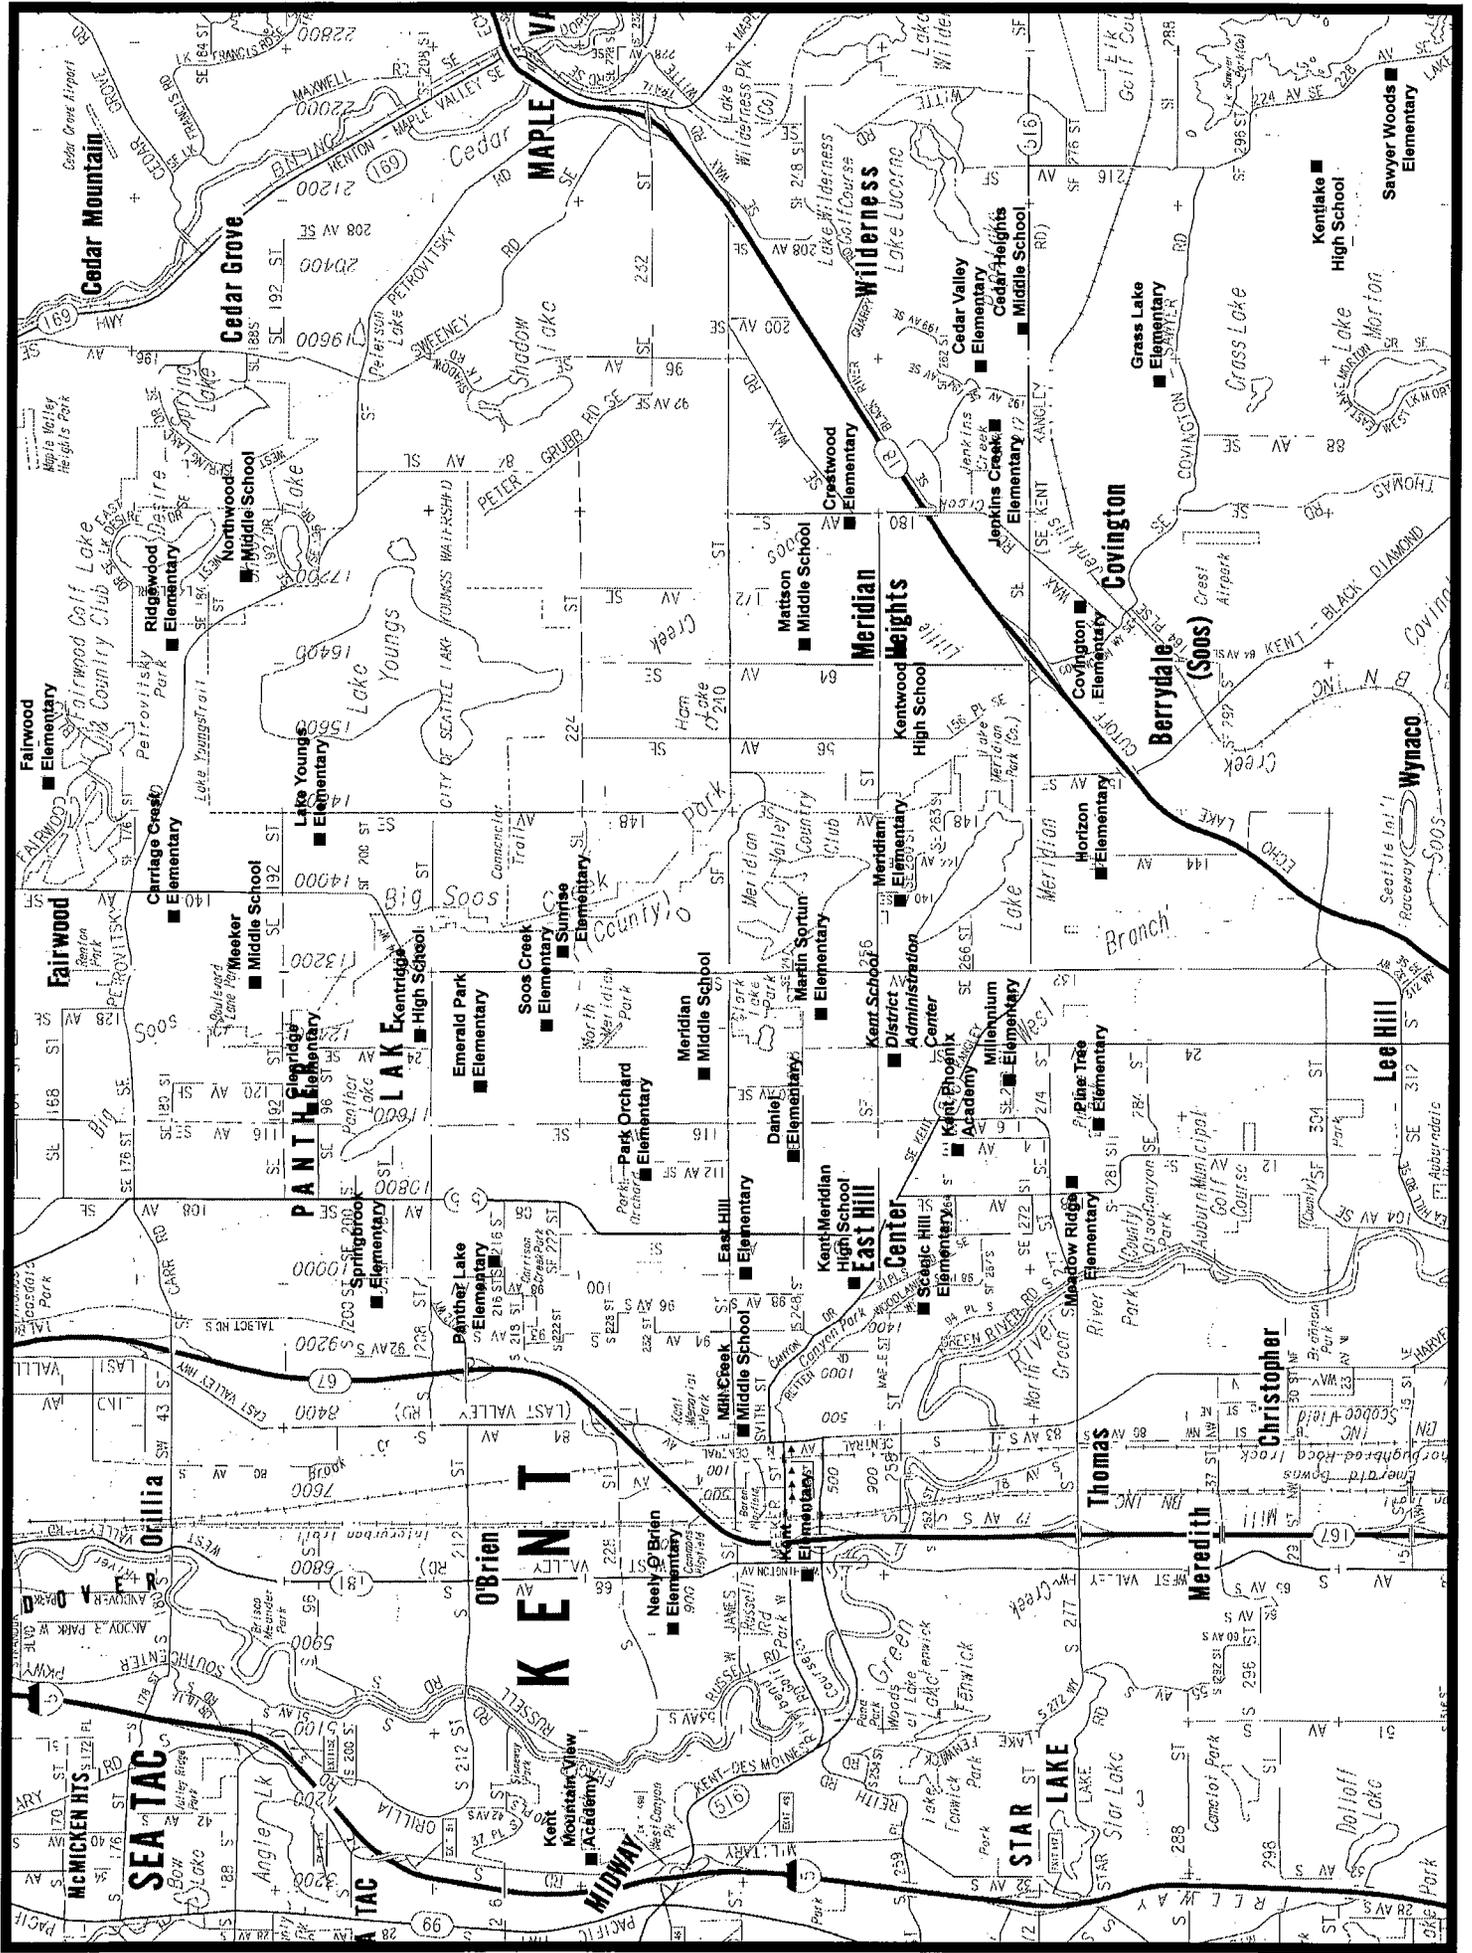

iGrad - Kent School District has pioneered the Individualized Graduation and Degree Program or “iGrad”. iGrad offers a second chance to students age 16-21 who have dropped out of high school and want to earn a high school diploma. iGrad is not included in this Capital Facilities Plan because it is served in leased space at the Kent Hill Plaza Shopping Center. Over the past three years, enrollment in the iGrad program has averaged over 300 students.

## **V - Six-Year Planning and Construction Plan**

In November 2017, the voters of the Kent School District approved a bond measure for \$252 million. This new bonding authority provides for a replacement for Covington Elementary school, which opened in August of 2018, a new elementary school in the Kent Valley (site will be the current Kent Mountain View Academy), and the twenty additional classrooms project redirected by the Kent School Board to build a Kent Academy Facility housing multiple academy programs in our district.

**KENT SCHOOL DISTRICT No. 415**  
**Site Acquisitions and Projects Planned to Provide Additional Capacity**

SCHOOL / FACILITY / SITE				LOCATION	Type	Status	Projected Completion Date	Projected Program Capacity	% for new Growth

	12	South Central Site (Yeh)	SE 286th St & 124th Ave SE, Auburn 98092	Urban	TBD			King County	
<b>Notes:</b>									
<sup>1</sup> TBD - To be determined - Some sites are identified but placement, timing and/or configuration of portables has not been determined.									
<sup>2</sup> Numbers correspond to sites on Site Bank Map on Page 19. Other Map site locations are parcels identified in Table 7 on Page 29.									

At the time of preparation of this Plan in spring 2019, the following projects to increase capacity are either in the planning phase or will start in spring 2019.

- Planning is in progress for an additional elementary school in the Kent Valley in 2020 or beyond. The project will be funded with bond funds and impact fees.
- Planning is in progress to add an Academy Facility at the Old Panther Lake Elementary Site in Kent in order to free up space at the former Sequoyah Middle School for additional classroom space if needed and/or to bring another middle school online in the near future.
- Some funding for lease or purchase of additional portables may be provided by impact fees as needed. Sites are based on need for additional capacity.

As a critical component of capital facilities planning, county and city planners and decision-makers are encouraged to consider safe walking conditions for all students when reviewing applications and design plans for new roads and developments. This should include sidewalks for pedestrian safety to and from school and bus stops as well as bus pull-outs and turn-arounds.

Included in this Plan is an inventory of potential projects and sites identified by the District which are potentially acceptable site alternatives in the future. *(See Table 4 on Page 16 & Site map on Page 17).*

Voter approved bond issues have included funding for the purchase of sites for some of these and future schools, and the sites acquired to date are included in this Plan. Some funding is secured for purchase of additional sites but some may be funded with impact fees as needed. Not all undeveloped properties meet current school construction requirements and some property may be traded or sold to meet future facility needs. The Board of Directors has started the process to sell surplus property in the spring of 2015.

The Board will continue an annual review of standards of service and those decisions will be reflected in each update of the Capital Facilities Plan.

#### **Anticipated 2019 – 2020 plan revisions**

The 2019 Capital Facilities Plan as submitted represents the final year of a series of one-year technical updates to the original Plan. However, the 2019-2020 school year represents a turning point for capital facilities planning in the district, and an opportunity to establish a fundamentally new four-year plan moving forward. This is necessitated by a few factors. The district will bring another school on-line (at the site of the former Kent Mountainview Academy) as early as the Fall of 2021 and will simultaneously initiate the process of exploring a redrawing of its district boundary map. The district will also

initiate an in-depth study of long-range enrollment projections, and contract for a new analysis of student generation rates. The intent of this process will be to do a new “level-set” of the district’s Capital Facilities Plan, and to engage our community in anticipating the associated needs for the next 4-6 years moving forward. This process will culminate with an opportunity to rethink our district philosophy on impact fees, which for the last several years have been updated annually for inflation.

## VI - Portable Classrooms

The Plan references use of portables as interim or transitional capacity and facilities.

Currently, the District utilizes portables to house students in excess of permanent capacity and for program purposes at some school locations. *(Please see Appendices A, B, C)*

Based on enrollment projections, implementation of full day kindergarten programs, lower state mandated class sizes, program capacity, and the need for additional permanent capacity, the District anticipates the need to purchase or lease additional portables during the next six-year period.

During the time period covered by this Plan, the District does not anticipate that all of the District’s portables will be replaced by permanent facilities. During the useful life of some of the portables, the school-age population may decline in some communities and increase in others, and these portables provide the flexibility to accommodate the immediate needs of the community.

Portables may be used as interim or transitional facilities:

1. To prevent overbuilding or overcrowding of permanent school facilities.
2. To cover the gap between the times of demand for increased capacity and completion of permanent school facilities to meet that demand.
3. To meet unique program requirements.

Portables currently in the District’s inventory are continually evaluated resulting in some being improved and some replaced.

The Plan projects that the District will use portables to accommodate interim housing needs for the next six years and beyond. The use of portables, their impacts on permanent facilities, life cycle and operational costs, and the interrelationship between portables, emerging technologies, and educational restructuring will continue to be examined.

## VII - Projected Six-Year Classroom Capacity

As stated in Section IV, the program capacity study is periodically updated for changes in special programs and reflects class size requirements, class size fluctuations etc. As shown in the Inventory and Capacity chart in Table 3 on Page 13, the program capacity is also reflected in the capacity and enrollment comparison charts. *(See Tables 5 & 5 A-B-C on pages 20-23).*

Enrollment is electronically reported to OSPI on Form P-223 on a monthly basis and funding apportionment is based on Annual Average FTE (AAFTE). The first school day of October is widely recognized as the enrollment “snapshot in time” to report enrollment for the year.

Kent School District continues to be the fifth largest district (both FTE and headcount basis) in the state of Washington. Kent School District continues to be the fifth largest district (both FTE and headcount basis) in the state of Washington. The P-223 Headcount for October 2017 was 26,523 with kindergarten students counted at 1.0 and excluding ECSE and college-only Running Start students. A full headcount of all students enrolled in October 2017 totals 28,192, which included ECSE and college-only Running Start students.

In October 2018, there were 1,118 students in 11th and 12th grade participating in the Running Start program at different colleges and receiving credits toward both high school and college graduation. Of these students, 593 attended classes only at the college (“college-only”) and are excluded from FTE and headcount for capacity and enrollment comparisons. Kent School District has one of the highest Running Start program participation rates in the state.

Based on the enrollment forecasts, permanent facility inventory and capacity, current standard of service, portable capacity, and future additional classroom space, the District plans to continue to satisfy concurrency requirements through the transitional use of portables. *(See Table 5 and Tables 5 A-B-C on Pages 20-23).*

This does not mean that some schools will not experience overcrowding. There may be a need for additional portables and/or new schools to accommodate growth within the District. New schools may be designed to accommodate placement of future portables. School attendance area changes, limited and costly movement of portables, zoning changes, market conditions, and educational restructuring will all play a major role in addressing overcrowding and underutilization of facilities in different parts of the District.

## VIII - Finance Plan

The finance plan shown on *Table 6* demonstrates how the Kent School District plans to finance improvements for the years 2019-2020 through 2023-2024. The financing components include secured and unsecured funding and impact fees. The plan is based on future bond issues, state school construction assistance, collection of impact fees under the State Growth Management Act and voluntary mitigation fees paid pursuant to State Environmental Policy Act.

The plan also includes an additional elementary school in the Kent Valley which has been determined to be located at the current site of the Kent Mountain View Academy on Military Road in SeaTac. Kent Mountain View Academy will share space at the current Kent Phoenix Academy (located at the former Sequoyah Middle School) starting the 2019-2020 school year. This new school will increase the capacity at the elementary level by 700 students. Some impact fees are scheduled to be part of the overall finance plan.

In November 2016, the District held a special election to approve the authorization of \$252,000,000 in bonding authority. The projects described above are part of this authorization. The first series of bonds (\$80 million) were issued in February 2017, which will fund the New Valley Elementary School and the New Academy Facility, as well as other infrastructure projects. *Impact fees will be used at both projects due to escalation in construction pricing across the pacific northwest.*

The Finance Plan includes new portables to be purchased or leased to provide additional capacity and some may be funded from impact fees.

Enrollment projections reflect future need for additional capacity at the elementary level and unfunded facility needs will be reviewed in the future and reported in annual updates of the Capital Facilities Plan. No impact fees are requested for secondary schools in this Plan.

For the Six-Year Finance Plan, costs of future schools are based on estimates from Kent School District Facilities Department. Please see pages 27-28 for a summary of the cost basis.

## Cost Basis Summary

For impact fee calculations, construction costs are based on cost of the last elementary school, adjusted for inflation, and projected cost of the future elementary schools and additional classrooms.

Elementary School	Cost	Projected Cost
Projected cost - Covington Elementary Replacement (Project opened Fall 2018)		\$46,077,470
Projected cost of New Elementary School Kent Valley (Projected to open Fall 2021)		\$40,000,000
Projected cost of New Academy Facility (projected to open Fall 2021)		\$18,000,000

## Site Acquisition Cost

The site acquisition cost is based on an average cost of sites purchased or built on within the last ten years. Please see Table 7 on page 28 for a list of site acquisition costs and averages.

## District Adjustment

The impact fee calculations on pages 30 and 31 include a "District Adjustment" which is equal to the amount of increase that the impact fee formulas total for this year and adjusted for the increase in the Consumer Price Index (2.9%) for the Seattle metropolitan area.

\* F = Funded U = Unfunded

**NOTES:**

- <sup>1</sup> Based on estimates of actual or future construction costs from Facilities Department. (See Page 26 for Cost Basis Summary)
- <sup>2</sup> The District anticipates receiving some State Funding Construction Assistance for some projects.
- <sup>3</sup> Facility needs are pending review. Some of these projects may be funded with impact fees.
- <sup>4</sup> Cost of portables based on current cost and adjusted for inflation for future years.
- <sup>5</sup> Fees in this column are based on amount of fees collected to date and estimated fees on future units.

**Notes & Comments from 06 Bond Issue for Portables (& Prev 2002 Bond Issue)**

- 2011 - Per Ralph, \$79K balance was transferred ("returned") to Bond Contingency - Reconciled with \$0 in balance for Portables
- 2010 - 2009 - Per Fred & Ralph - \$221K spent for NEW Portable at NO - Neely-O'Brien leaving a Balance of \$79K in 06 Bond Issue
- 2008 - Per Ralph \$300K from 06 bond issue - \$221K to be utilized for New Portable at NO
- 2008 - Previous balance of \$145,211 from 2002 Bond has been expended (probably for replacement of double-wide Portable at FW
- 2007 - Per Ralph, Balance in Project 530 is now \$145,211
- 2005 - Per Shelley - Added \$166,040 to \$144,390 = \$310,430 \$166,040 is from 2002 Bond funds to replace the double-wide Portable at FW
- 2004 - Same \$144,390 carried forward from last year - Comes from Capital Projects to Date Report for Program 9430 & Project 530

District Adjustment (see page 28 for explanation)		(\$415)
Net Fee Obligation per Residential Unit - Multi-family		<u>\$2,345</u>

## IX - Summary of Changes to June 2018 Capital Facilities Plan

The Capital Facilities Plan (the "Plan") is updated annually based on previous Plans in effect since 1993. The primary changes from the May 2018 Plan are summarized here.

Changes to capacity continue to reflect fluctuations in class size as well as program changes. Changes in portables or transitional capacity reflect use, lease or purchase, sale, surplus and/or movement between facilities.

The student headcount enrollment forecast is updated annually. All Elementary schools now have Full Day Kindergarten so six-year Kindergarten projections were previously modified to meet the requirements for Full Day Kindergarten programs at all elementary schools.

The district expects to receive some State Funding Assistance (formerly called "state matching funds") for projects in this Plan and tax credit factors are updated annually. Unfunded site and facility needs will be reviewed in the future.

The impact fees for 2019 will increase by the percentage increase of the consumer price index for the Seattle metropolitan area in. For 2018, the increase was 2.9%. For single-family residences, the fee will increase by \$157 to \$5,554. The impact fee for multi-family units will increase by \$66 to \$2,345.

## X - Appendices

Changes to Impact Fee Calculation Factors include:

ITEM	Grade/Type	FROM	TO	Comments
Student Generation Factor	Elem	0.257	0.398

<sup>1</sup> Elementary classroom capacity is based on average of 22.69: 17 in K-3 & 25 in Grades 4-6. Includes adjustments for class size reduction or special program changes.  
<sup>2</sup> Kent School District Standard of Service reserves some rooms for pull-out programs. ie. 20 Total = 16 Standard + 1 Computer Lab + 1 Music + 1 Integrated Program classroom.  
<sup>3</sup> All elementary schools have Full Day Kindergarten  
<sup>4</sup> Elementary schools have 100% space utilization rate with no adjustments for part-time use of classrooms. Counts exclude ECSE Preschoolers & space is reserved for ECE classrooms.  
<sup>5</sup> Elementary Schools in bold type are classified as High Poverty and class size in grades K-3 is 17:1
